Jobsupport Transition (CWO) Update

Jobsupport Tops TTW Open Employment Outcomes

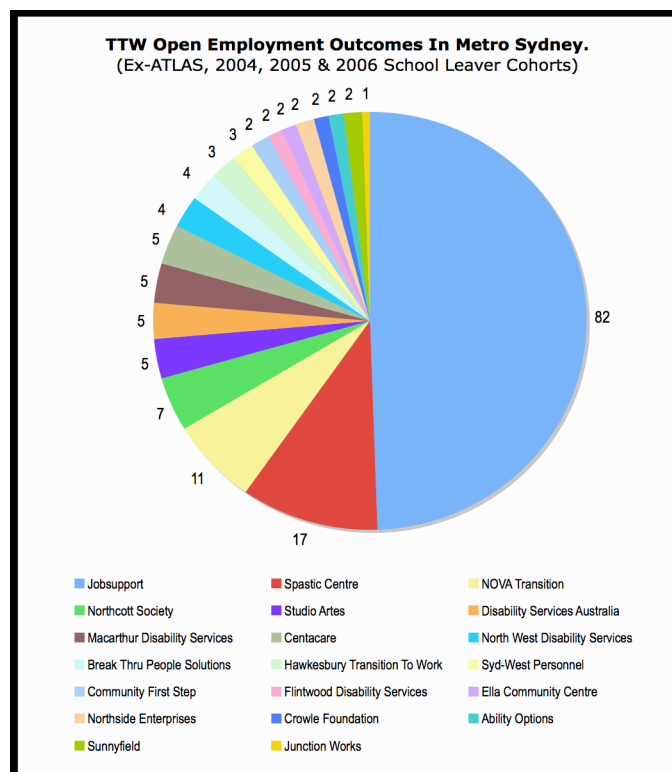

ADHC has published the results from the first three groups of Transition to Work (TTW) service users. This includes 2004, 2005 & 2006 school leavers and people who transferred from the ATLAS program.

The results were collated from each of the TTW services in NSW, and list employment and other service user outcomes. Additional information on the results is available at:

<http://www.dadhc.nsw.gov.au/dadhc/People+with+a+disability/Post+School+Programs>

Jobsupport Transition (CWO) leads the open employment results with 82 out of 119 service users achieving paid employment in the regular workforce..

The release by ADHC of program results is very welcome. School leavers and their families now have a basis for informed choice when deciding which TTW service will best meet their transition goals.

Jobsupport Transition continues to be Sydney's best TTW choice for people with significant intellectual disability who want to achieve open employment – paid work in the regular community
